Reflection Questions

WSASP 2026 · Identifying & Supporting Struggling Math Students

1 - Exploring current practices

How do your schools currently approach math screening and intervention?

What is going well and what are the challenges?

2 - Potential applications

How might what you learned today be applied to your schools?

What would be a first step in exploring this?

3 - Enhancing your practice

What would you like to learn more about?

What would support you as you explore these ideas?
